Culver CITY *City Maintained Street Centerlines*

The screenshot shows the ArcCatalog interface with the 'Spatial Database Connection Properties' dialog box open. The dialog box is titled 'Spatial Database Connection Properties' and has a close button (X) in the top right corner. It contains the following fields and options:

- Server:** ALMANAC
- Service:** sde:sqlserver:almanac
- Database:** Basemap
- Account:**
 - ☐ Database authentication
 - Username:
 - Password:
 - ☐ Save username and password
 - ☒ Operating system authentication
- Connection details:**
 - The following transactional version will be used: sde.DEFAULT
 - ☒ Save the transactional version name with the connection file.
- Buttons:** Test Connection, OK, Cancel

The background shows the ArcCatalog interface with the 'Catalog Tree' on the left and a list of database connections in the center. The 'Catalog Tree' shows a hierarchy of folders and connections, including 'Folder Connections', 'Database Servers', and 'Database Connections'. The 'Database Connections' folder is expanded, showing 'ALMANAC Basemap' selected. The center pane shows a list of database connections, including 'Basemap.dbo.Assessor Data', 'Basemap.dbo.Assessor Data 1', 'Basemap.dbo.Culver_20120905', 'Basemap.dbo.MikeParcel', 'Basemap.dbo.test1', 'Basemap.dbo.test2', 'Basemap.SDEADMIN.Addresses', 'Basemap.SDEADMIN.BlocksEOP', 'Basemap.SDEADMIN.BuildingFoot', 'Basemap.SDEADMIN.Businesses', 'Basemap.SDEADMIN.Centerlines', 'Basemap.SDEADMIN.CityFacilities', 'Basemap.SDEADMIN.EdgeOfPave', 'Basemap.SDEADMIN.EdgeOfPave', 'Basemap.SDEADMIN.Freeways', 'Basemap.SDEADMIN.Ocean', 'Basemap.SDEADMIN.Parcels', 'Basemap.SDEADMIN.Parcels_ext', 'Basemap.SDEADMIN.Parks', 'Basemap.SDEADMIN.PublicAndCit', 'Basemap.SDEADMIN.PublicFacilities', 'Basemap.SDEADMIN.Redvelopm...', 'Basemap.SDEADMIN.Redvelopm...', 'Basemap.SDEADMIN.RegionalAre...'. The 'Basemap.SDEADMIN.RegionalAre...' connection is highlighted, and a tooltip shows 'SDE Feature Class'.

The screenshot displays the 'Sewer Infrastructure Management System (SIS)' web application. The interface includes a header with the Culver City logo and a search bar. Below the header is a banner image of Culver City with the text 'Culver CITY Property Information Search'. The main content area features a map of a residential neighborhood with yellow property boundaries. A sidebar on the left titled 'Map Layers' contains a 'Map Theme' dropdown set to 'Image Map (default)' and two sections of checkboxes: 'Other Data Layers' (with 'Occupants / Addresses' checked) and 'Base Maps'. A search bar on the right side of the map is labeled 'Search for map'. A small inset window on the right shows a zoomed-in view of a sewer line with the label 'ALL SEWER'. At the bottom of the map, a video player shows a timestamp of 12:06p, a date of 09.20.2010, and a location of 10° 02'.
