# Disneyland

## A welcome from Walt Disney

"All of us at Disneyland hope that your visit today will be a happy and memorable experience for you and your family.

"Disneyland is often called a 'Magic Kingdom' because it combines fantasy and history, adventure and learning, together with every variety of recreation and fun designed to appeal to everyone.

"During your visit, you may wish to stop for a moment in Town Square. There, at the base of the flagpole, you will find a message which expresses Disneyland's true purpose.

*To all who come to this happy place... WELCOME.*

*Disneyland is your land. Here age relives fond memories of the past... and here youth may savor the challenge and promise of the future.*

"Disneyland is dedicated to the ideals, the dreams and the hard facts which have created America... with the hope that it will be a source of joy and inspiration to all the world."

*"All aboard" for a trip around Disneyland and into the Grand Canyon as the Santa Fe & Disneyland trains steam into the Main Street Station.*

"Many of us fondly remember our 'small home town' and its friendly way of life at the turn of the century. To me, this era represents an important part of our heritage and thus we have endeavored to recapture those years on Main Street, U.S.A. at Disneyland.

"Here is the America of 1890-1910, at the crossroads of an era, where the gas lamp is gradually being replaced by the electric lamp; the plodding, horse-drawn street car is giving way to the chugging 'horseless carriage.' America was in transition: the discoveries of the late 19th Century were beginning to affect our way of life.

"Main Street represents the typical small town in the early 1900's—the heartline of America.

"For those of us who remember those carefree times, Main Street will bring back happy memories. For our younger visitors, it is an adventure in turning back the clock to the days of grandfather's youth.

"When you visit the apothecary, the ice cream parlor, the market house and the exhibits which have been re-created from this bygone era, we hope you'll visualize, as I often do, your own home town's main street, or the one your parents and grandparents have told you about.

"And before leaving Main Street, many of you will want to board one of the Santa Fe and Disneyland railroad trains at the old-fashioned Main Street depot for a complete trip around Disneyland, including our new Grand Canyon diorama where you'll see the breath-taking beauty of this natural wonder and its wild life inhabitants."

*The leisurely pace of Disneyland's horse-drawn streetcars keynotes the atmosphere of Main Street.*

*A young admirer leads the popular Disneyland Band, with expert advice from Band Leader Vesey Walker.*

*Visitors answer the alarm on the hose and chemical wagon of the horse-drawn Fire Department.*

*All the colors in the rainbow glisten in the distinctive Candle Shop on Main Street.*

*A gay twirl with your best girl to the dance rhythms of Disneyland's popular Date Nitters orchestra is a Summertime evening favorite.*

*Disneyland guests enjoy tasty meals in settings fitting the theme of each land, including this 1890 restaurant at Main Street's Plaza.*

*An old-fashioned double-decked Omnibus carries Disneyland guests for a ride down Main Street.*

*Happy memories of days gone by are revived by the Disneyland Band's parades on Main Street.*

*In an 1890 setting, tempting "modern" treats are mouth-watering at the Ice Cream Parlor.*

*Mothers care for their infants at Disneyland's Baby Station, which even has "reserved parking" for strollers only.*

## Grand Canyon

*Sure-footed desert mountain sheep are viewed atop a rock formation in the foreground of Disneyland's Grand Canyon Diorama.*

# FANTASYLAND

"When we were planning Fantasyland, I recalled the lyrics of the song, 'When You Wish Upon a Star'.

"The words of that melody, from our picture 'Pinocchio', inspired us to create a land where dreams could actually 'come true'.

"In Fantasyland, those classic stories of childhood have become actual realities for you to participate in. Here in 'the happiest kingdom of them all,' you can journey with Snow White through the dark forests to the home of the Seven Dwarfs; fly with Peter Pan from the clutches of Mr. Snee and Captain Hook; and race with Mr. Toad on his wild auto ride through Old London Town.

"There are many other happy adventures in Fantasyland, too. Through the Rabbit Hole, you'll find the nonsensical world of Alice in Wonderland; and Dumbo, the elephant with aerodynamic ears, will carry you on a flight high above Fantasyland. In colorful Dutch canal boats, you'll journey through Storybook Land to view the homes of the Three Little Pigs, Pinocchio's Village and Cinderella's dream castle.

"The time you spend in this gay and carefree kingdom will be a dream come true—for everyone who is young in heart."

*Across the moat and drawbridge of graceful Sleeping Beauty Castle lies Fantasyland, where stories of childhood become actual realities.*

*Mr. Toad's Wild Ride is a hilarious adventure for the young in heart of all ages.*

*Elephants really fly in Fantasyland, where guests soar happily aboard Dumbo.*

*72 lively steeds prance merrily to a calliope tune on Fantasyland's carousel.*

*Fantasyland—home of the Mad Hatter's Tea Party, Snow White, Mr. Toad and many others—is truly the happiest kingdom of them all!*

*Aboard gay canal boats, visitors to Storybook Land see many famous scenes, including Pinocchio's Village nestled below the Swiss Alps.*

*Casey Jr. huffs up hill and down with his cargo of carefree passengers.*

*While taller youngsters drive Tomorrowland's Autopia, the small fry thrill to their trip over Fantasyland's Midget Autopia.*

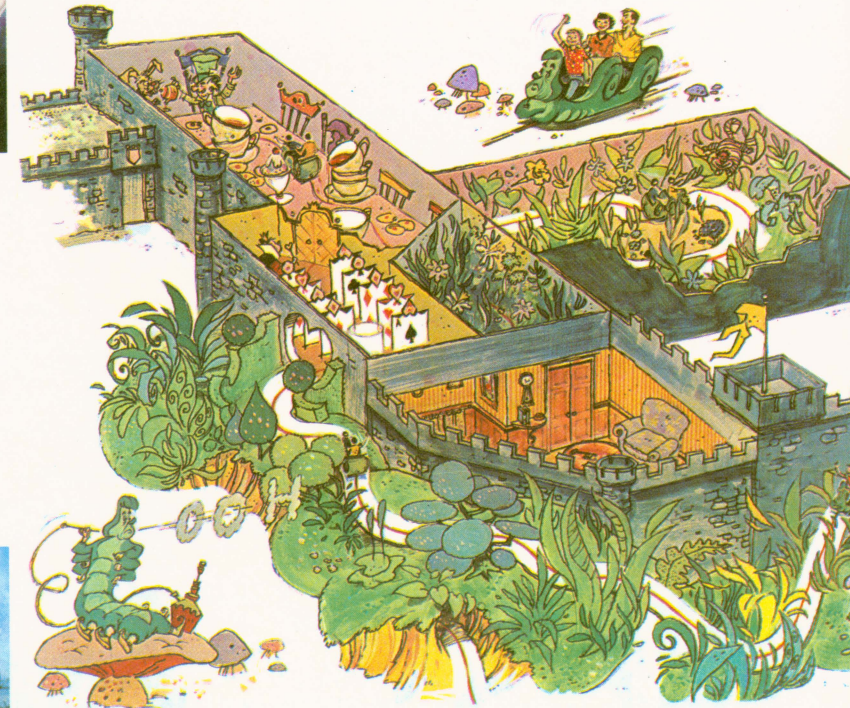

*Disneyland's brilliant "Fantasy in the Sky" fireworks burst over the Fantasyland Castle every Summer evening.*

*Ready for a flight in a Peter Pan pirate galleon over Moonlit London to Never Never Land!*

## **Alice in Wonderland**

*Alice in Wonderland, now completed, takes visitors through the Rabbit Hole into the dream world of the Upside Down Room and the Cheshire Cat.*

*Steering through rapids is fun on the Motor Boat Cruise.*

# FRONTIERLAND

"All of us, whether 10th generation or naturalized Americans, have cause to be proud of our country's history, shaped by the pioneering spirit of our forefathers.

"It is to those hardy pioneers, men and women of vision, faith and courage, that we have dedicated Frontierland. Here you can return to Frontier America, from the Revolutionary War era to the final taming of the Great Southwest.

"In Frontierland, you can journey down the Rivers of America aboard a Mississippi sternwheel steamboat for a glimpse of Mark Twain's America; laugh at the boisterous, rollicking floor show in the Golden Horseshoe 'Saloon'; view the ghost town of Rainbow Ridge, typical of the mining towns in the old West; and float to Tom Sawyer Island aboard a Huck Finn raft to explore Injun Joe's Cave and old Fort Wilderness.

"Aboard a Conestoga Covered Wagon or stagecoach, you see the wonders of the Painted Desert, and the Rainbow Ridge Mine Train takes you deep into underground caverns abounding with multi-colored waterfalls.

"You can 'book passage' for a voyage aboard the three masted sailing ship, the 'Columbia,' one of Frontierland's newest attractions.

"Disneyland's 'Columbia' is a replica of the original ship that made maritime history as the first American vessel to sail 'round the world.

"All these and many other adventures in Frontierland are designed to give you the feeling of having 'lived,' even for a short while, during our country's days of pioneer development."

*The Rainbow Mountain Mine Train chugs across the cactus-studded Desert on its way into glittering Rainbow Caverns.*

*Log rafts transport fun-seeking youngsters of all ages to Tom Sawyer Island for fishing, climbing and exploring.*

*Breathtaking waterfalls, multi-colored stalactites and stalagmites are seen inside beautiful Rainbow Caverns.*

*Hardy "pioneers" cross Frontierland's picturesque Desert aboard a Concord Stagecoach.*

*Just as the fictional Tom did many years ago, youngsters play in the Tree House on Tom Sawyer Island.*

*The ghost town of Rainbow Ridge is the train depot for a Mine Train trip into Rainbow Caverns.*

*Marshall Lucky just never had a chance against this lightnin' fast gun-slinger.*

*Fishing (for real live fish!) is a popular favorite on Tom Sawyer Island.*

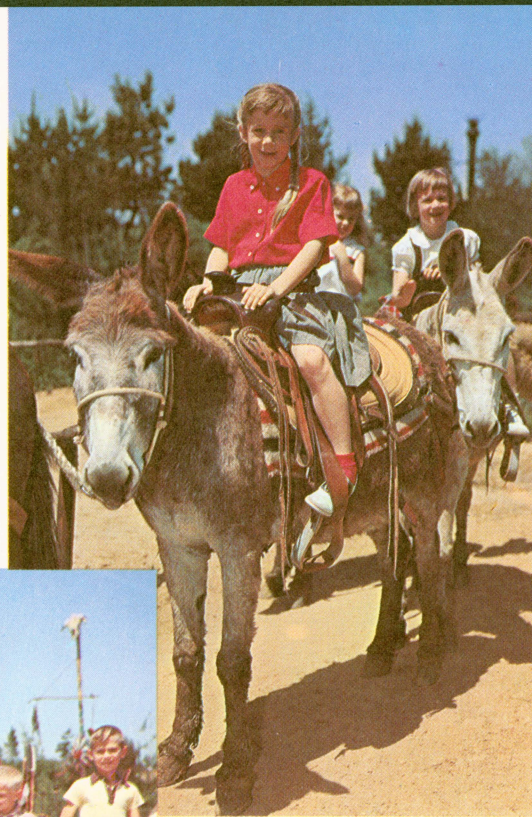

*The stately MARK TWAIN sternwheel steamboat cruises down the Frontierland River as an Indian canoe, paddled by guests themselves, races ahead.*

**16**

*Climbing tall Castle Rock or exploring dark caves, youngsters thrill to safe adventures on Tom Sawyer Island.*

*Young cowpokes delight  
in a trip across the  
Desert on a mule "train."*

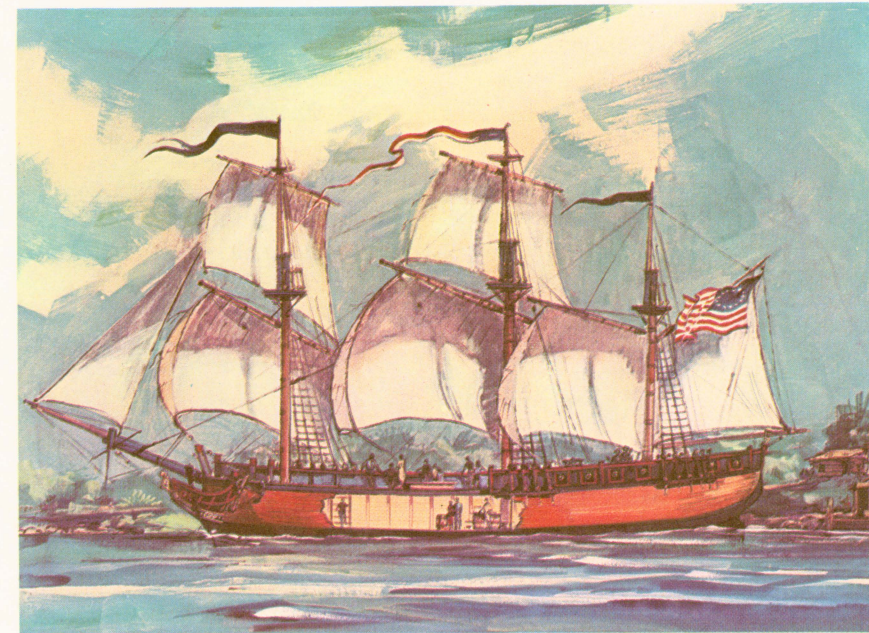

*A lively finale at the  
old-West Golden  
Horseshoe Revue, one of  
Disneyland's many free  
shows, is provided by  
the colorfully costumed  
Can Can Girls.*

*An indian feast dance is taught  
to willing pupils by Frontierland's  
Chief Shooting Star.*

## Columbia

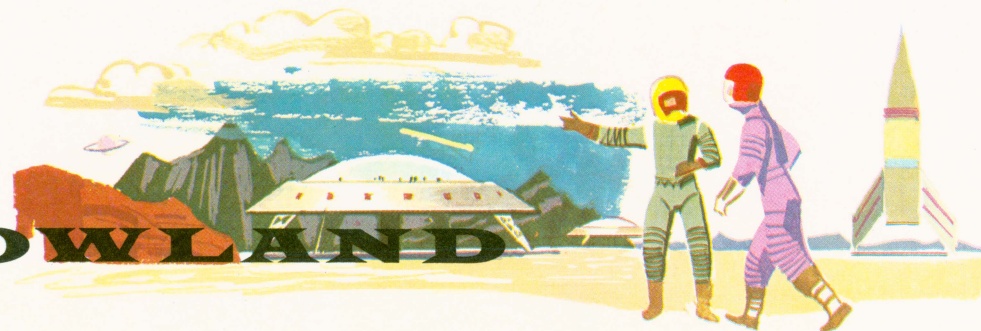

*Although we had only an artist's sketch for this Guide, the COLUMBIA  
1790 three-masted sailing ship now navigates the Frontierland River.*

*Guarding against an  
"Indian raid," rifle practice is  
the order of the day at  
Fort Wilderness.*

# TOMORROWLAND

"Tomorrow can be a wonderful age. Our scientists today are opening the doors of the Atomic Age to achievements which will benefit our children and generations to come.

"In Tomorrowland, we've arranged a preview of some of these wonderful developments the future holds in store. You will actually experience what many of America's foremost men of science and industry predict for the world of tomorrow.

"Time moves forward to the year 1987. You board a rocket ship and 'blast off' into outer space, leaving the earth far below in your journey through space towards your destination—the Moon. Nearby, on the Space Satellite, you'll see America from a space platform as it orbits around our globe.

"Whether you're a grown-up or a youngster, you'll want to visit Monsanto's House of the Future. Inside this unique home, plastics play an important part in developments for future living. Ultrasonic dishwashers, microwave cooking range, 'movable' household fixtures and intercom television are but a few of the features to be found.

"Most popular transportation in Tomorrowland is the Autopia Freeway of the Future, where youngsters of all ages drive real gasoline powered automobiles over the safest super highway in the world. You can also 'break the sound barrier' in an AstroJet, or travel high above Disneyland on the lofty Skyway.

"These Tomorrowland attractions, and many others, have been designed to give you the opportunity to participate in adventures which are a living blueprint of our future."

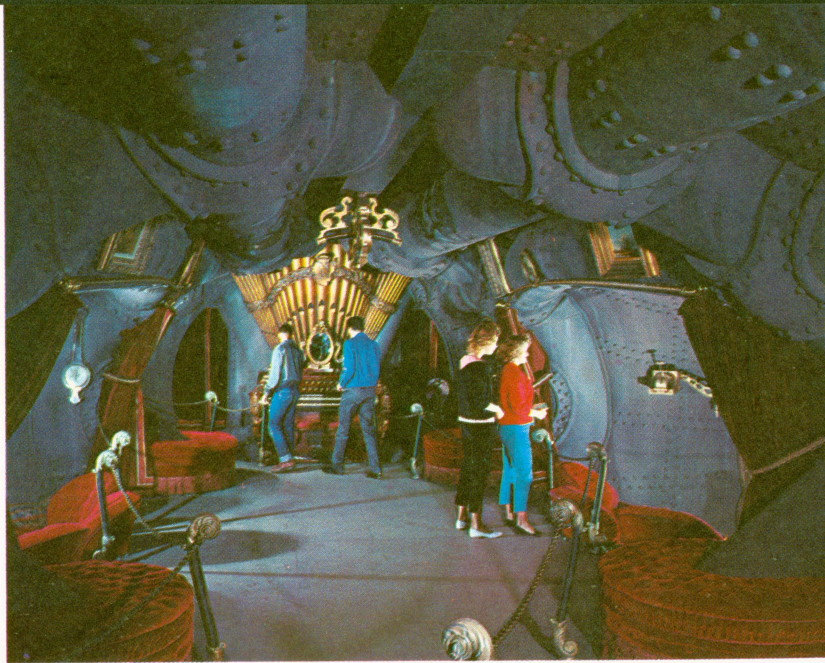

*Looking down on all Tomorrowland, TWA's tall rocket pylon symbolizes Disneyland's dream world of the future.*

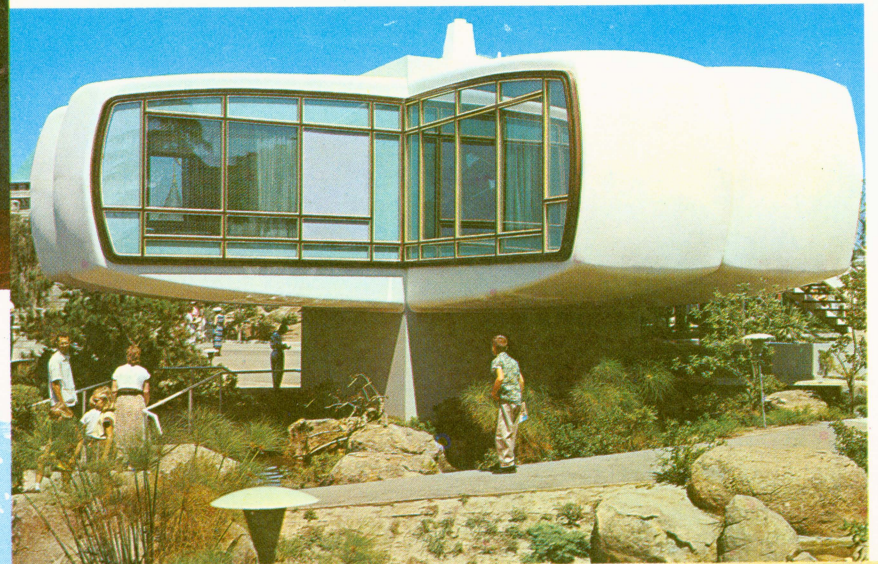

*Inside the submarine Nautilus from the story "20,000 Leagues Under the Sea," visitors see the Giant Squid and Captain Nemo's hideaway.*

*Monsanto's all plastic House of the Future is ultra-modern in exterior design as well as interior furnishings.*

*Sleek forms of transportation, the low speedy Viewliner train and Autopia cars, pass one another in this busy realm.*

19

*Cooking in seconds on a microwave range and dishwashing with an ultrasonic washer are preview features of Monsanto's House of the Future.*

*Model airplane races and exhibitions are featured at the Flight Circle.*

*"Breaking the sound barrier," Disneyland guests pilot the fast flying AstroJet.*

*The colorful Avenue of Flags marks the entrance to Tomorrowland, the world of 1987.*

*Space explorers get set to "blast off" to the Moon inside Tomorrowland's Space Chamber.*

*"Fun with Water" in Tomorrowland, where some of America's leading companies present exciting free exhibits.*

*Youngsters and adults alike enjoy Tomorrowland's most popular transportation, a drive in gasoline powered cars over the Autopia Freeway.*

*Soaring high aboard the lofty Skyway, visitors look down on all Disneyland as they travel between Tomorrowland and Fantasyland.*

*Adventureland's entrance calls out the exciting journey to far-off places.*

"Everyone has a dream of traveling to mysterious far-off places, or exotic tropical regions of the world.

"To create a land which would make these dreams a reality, we pictured ourselves far from civilization, in the remote jungles of Asia and Africa. The result is Adventureland.

"In this 'wonderland of nature's own design,' you will find bright orchids, colorful flowers, tropical plantings and trees imported from the four corners of the world. Adventureland is also filled with 'wild' animals and native 'savages' who often display their hostility to your invasion of their jungle privacy.

"You enjoy all this on an explorer's boat cruise which carries you away from civilization on an exciting trip down mysterious jungle rivers. Adventure lurks at every bend in the winding rivers. There is the misty Amazon with its tropical rainforest; the murky Mekong River of Indochina; the dangerous hippopotamus-filled waters of the Belgian Congo; and the swirling rapids of the Nile.

"Crocodiles, bull elephants, lions, tigers, headhunters, tall giraffe, water buffalo—you'll meet them all on this true-to-life safari into the jungle wonder world of Adventureland."

*Exotic imports from the four corners of the world are displayed in Adventureland's tropical Bazaar.*

*Excitement mounts as a brightly canopied Adventureland boat steams toward cascading Schweitzer Falls.*

*A bull elephant, his ivory white tusks gleaming in the sunlight, trumpets at the passing boats.*

*Native headhunters chant their war cries as your boat approaches.*

*From this tropical dock,  
passengers board the  
Adventureland boats for  
a journey down jungle  
rivers of the world.*

*The gaping mouth of an  
"attacking" hippo is part of the  
thrills and excitement of a  
jungle cruise in Adventureland.*

*Ablaze with color, brilliant  
orchids grow in the  
tropical rainforest along  
Adventureland's river.*

*An Adventureland boat guide fires a point-blank  
pistol shot at a charging hippo.*

# ...DREAMING

When Disneyland opened in 1955, Walt Disney said: "Disneyland will never be completed. It will continue to grow, to add new things, as long as there is imagination left in the world."

In planning for the future, Walt Disney is always searching for new ideas and attractions for Disneyland. On previous pages in this Souvenir Guide are pictures of some of Disneyland's newest attractions: the Grand Canyon Diorama, the three-masted sailing ship "Colum-

bia," the Alice in Wonderland Adventures, and the Excursion Train.

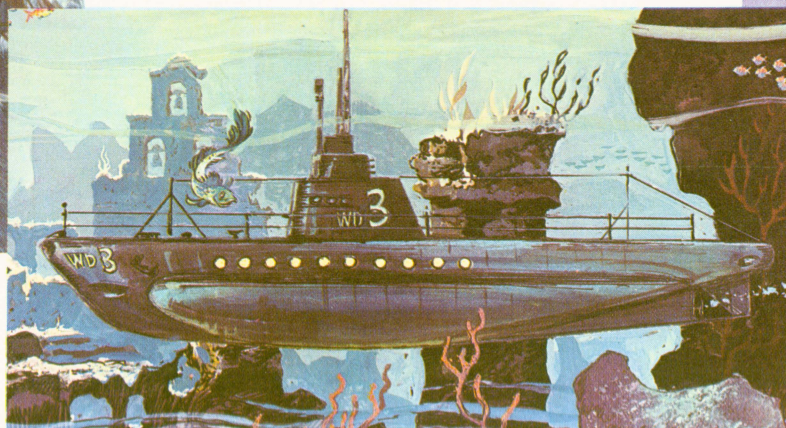

Many other attractions—entertaining, fanciful, historical and educational—are still in the "dreaming" stages. While actual dates of their installation cannot be promised, some of them may be here for you and your family to enjoy on your next visit to Disneyland. On this page are drawings which show some of the "dreams" Walt Disney has for Disneyland's future.

## Fabulous Disneyland Hotel and Gourmet Restaurants

Located right across the street from Disneyland Park, the new Disneyland Hotel is a year 'round resort designed and priced for family fun.

Featuring the most modern accommodations uniquely set in the midst of an orange grove—with orange trees at the back door of every room—the Disneyland Hotel is designed for restful relaxation and is operated by Wrather Hotels, Inc.

There's something for everyone in the family at the Hotel. Its complete facilities include 200 rooms, each with sun deck or patio and a TV set, distinctive stores in the shopping arcade, an Olympic-size swimming pool, wading pools and sand play areas for children, a golf putting green and shuffleboard courts.

The Gourmet Restaurants, composed of coffee shop, cocktail lounge, dining rooms and banquet hall, overlook the Hotel's lighted and terraced pools and orange

groves. Breakfast, luncheon, dinner and late snacks are featured at the Gourmet. Private parties and banquets of from 25 to 500 people are accommodated on the second floor of the air conditioned restaurant. Entertainment is featured nightly in the lounge, and fashion shows are presented in the restaurant.

Each of the Disneyland Hotel's rooms is designed to sleep four people in comfort and convenience in a single unit, with special facilities for youngsters and air conditioned comfort as well. Courtesy guest parking is practically at every door.

In the main administrative building, guests will find a wide variety of distinctive shops offering gifts, clothing, cosmetics and sundries, cameras, film, handbags and jewelry, Hawaiian and Latin imports, toys, flowers and candy. A barber shop and beauty salon are located within the Hotel, as well as airline ticket agencies.

Conventions are a family affair in this unique setting, with Disneyland Park just minutes away by special courtesy tram service. Four complete conference rooms are available for business meetings and conventions.

The Coral Swim Club is ideally situated midway between the hotel units and the main administration building and restaurants. The Club's large Olympic-size heated pool, surrounded by cabanas, deck chairs and lounging areas, is ideal for sun bathing and relaxation. Alongside the main pool is a smaller wading pool and sand-and-play areas for youngsters, and nearby, the championship putting green and shuffleboard facilities.

Limousine service is available from Los Angeles International Airport directly to the Hotel, and the courtesy tram meets all incoming helicopter flights at Disneyland's own Heliport.
